In 1951, government crop-purchasing agencies will purchase meat, unfattened hogs, fats (lard, butter), milk, dairy products, and wool.

In the economic year 1951 - 1952, these agencies will purchase grain, potatoes, legumes (peas, beans, and lentils), olive oil, and hay.

Production and purchase contracts for industrial plants will be regulated by the chairman of the Economic Council in cooperation with the Chairman of the Council for the Turnover of Goods.

The existing directives on the purchase of hides are still valid.

CURTAIL RECLAMATION PLAN -- Ljubljana Slovenski Porocevalec, 22 Sep 50

The reclamation plan in Slovenia has been curtailed because of a shortage of manpower and machinery. Reclamation in Prekmurje will be suspended indefinitely. Reclamation will continue in the Psata and Ljask areas. However, the 1950 reclamation plan for the Psata area will be fulfilled by only 80 to 85 percent because of a manpower shortage. From 350 to 400 hectares of land on the left bank of the Psata River will be protected from floods this year.
